

# Imperial Starbase Society

**We're looking for a few good volunteers and temporarily waiving membership fees!**

**What is I.S.S.?** Imperial Starbase Society is a 501(c)(3) non-profit organization with strong roots in the Northwest's fandom community. Our overall objectives focus on improving education, especially in the areas of science and computer education in our local communities. We have worked with local scout troops and local schools in the past and plan on doing so again in the future.

**Interesting, how can I help?** Currently I.S.S. is looking for new members and volunteers to help out with several projects such as our fundraiser at Norwescon 33 (April 1-4 2010). We are also starting to plan our own convention that we call I.S.S.U.E. (Imperial Starbase Society Ultimate Exposition). Those that are able to volunteer for I.S.S. during or before Norwescon may be eligible for free I.S.S. membership.

**I.S.S. is planning a convention?** We are in the very early stages of doing so. Over the years all of our officers have helped with putting on conventions and our hope is to combine our favorite elements from those experiences into a new annual event. If you have some time we would love to hear your thoughts.

**What do you have planned for Norwescon?** We are very well known for our annual room parties and will be hosting another one. Our parties are setup for all ages and famous for our food offerings.

**What about this free membership offer?** I.S.S. has some big plans and to pull them off we are going to need people. In an effort to get more people involved we thought we would temporarily waive our annual membership fee, although putting in volunteer hours is still required. Members earn the right to vote for officers, have a say when it comes to what the organization does, and also provide input in planning and organizing our events. Hopefully as time goes on and we grow we will be able to offer more perks and benefits. If you have ideas, want to help, or have more questions please send us an email.

**What is the best way to stay in touch with I.S.S.?** Email is the best option for getting the most current information. We do our best to update our website and other outlets, but we are a small group and I.S.S. is something we work on in our free time outside of our everyday jobs and lives. While we would love to say the website or Facebook/LiveJournal are the best options we do not always have the chance to get those updated in a timely manner. Our contact information is provided on the right.
